Vinegar Caution!

Vinegar may be Vinegar or it may be something else; and due regard for health demands care in the purchase of this article of universal consumption. Perhaps a so-called Vinegar, composed of acetic acid and water, may not be called strictly poisonous, but to use it is to treat the delicate lining of one's stomach rather harshly, to say the least, while its strong metallic taste destroys the flavor of everything to which it is applied. Or if it is doctored with tannic or sulphuric acid to improve its flavor, then it is doubly dangerous because more deceitful. It would seem, therefore, that one's only safeguard is to
